

Hyundai's first automotive assembly and production facility in the U.S. – Hyundai Motor Manufacturing Alabama (“HMMA”) – and our local suppliers generated a total impact of \$3.8 billion to the economy of the State of Alabama in 2010, accounting for 2 percent of Alabama's Real Gross Domestic Product. **HMMA was directly responsible for 74 percent, or \$2.8 billion, of this total economic impact, while our suppliers generated \$1 billion (26 percent) of the impact.**

While the greater United States experienced a contraction of manufacturing jobs, HMMA contributed to a 21 percent growth rate in manufacturing employment in the Montgomery Metro Area between 2002, when we began construction of our plant, and 2006 after our first full year of hiring. **In 2010, HMMA and our suppliers were responsible for more than 34,000 full-time equivalent jobs statewide.**

Specific to public fiscal impact, the study estimates that HMMA and our suppliers yielded \$61.3 million in total tax revenue to Alabama in 2010. HMMA's local tax impact was approximately \$8.3 million, while HMMA and our suppliers generated an estimated \$53 million of tax revenue for the state.
